HOW IT WORKS

Phase one, we begin with reviewing the chart of the organization or business based on the day and time of its inception. We do this in a group call with the core/executive team to understand the foundation we are working with. **Phase two** consists of individual sessions with each team member to fortify and ignite their personal mission in regard to the organization. **Phase three** is to regroup as a team and review the astrological indications for the team dynamics with both the organization and each other.

The cost of the package depends on the size of the Organization and number of employees.

Monthly Retainer options available.
